Karl Guenther C.E.O.  
Sky Train Corp.  
2599 Dolly Bay Drive Suite T308  
Palm Harbor FL 34684

Dear Karl:

WEDU in Tampa, FL would be delighted to produce and act as the PBS presenting station and as distributor for Hydrogen Fuel Cell Substation "Sky Train: A Solar and Hydrogen Fueled Mass Transportation System", upon its funding completion. We are confident that it will be a program of quality, integrity and value for the PBS viewing audience.

As you know, PBS offers unparalleled access to a diverse audience that is made up of well educated, informed, and loyal viewers. WEDU has captured the trust of PBS programmers across the nation for its enduring ability to provide programming that is singularly intelligent, informative and entertaining. Public television has a reputation for excellence and the highest brand equity of any broadcast network.

With this said to all interested parties, WEDU is a registered 501 (c) (3) non-profit corporation and agrees to administer foundation grants and awards for this production.

For those parties requesting an IRS letter of determination, current annual budget, and most recent audited financial statement, this can be provided.

As we move forward to produce and distribute the series please keep in mind that programs presented by WEDU must meet the PBS production, delivery and underwriting guidelines. We will ensure that the broadcast rights provide PBS Stations with the greatest flexibility and maximize the exposure of this program.

We are excited about making this informative program and bring it to the PBS audience. We believe that your project represents an excellent match with WEDU and PBS, its mission, and its standards, and we look forward to working with you to see it to fruition.

Sincerely,

Larry Jopek  
Vice President of Marketing and Community Partnerships  
WEDU
